Dear Sir:

In the Office Action of January 18, 2006, two different response periods are set out, namely, a one month period to respond to the restriction requirement and a three month period for responding to the substantive office action. Applicant called the Examiner and suggested that the period for response to the restriction requirement should be the same as the period for response on the merits. In response, the Examiner left a voicemail on February 13, 2006 that the response to the restriction requirement is reset to be the same three month period as the response to the substantive office action.

Dated: February 15, 2006

Respectfully submitted,
